

Dear Tribal Members,

As a candidate for the Tribal Council, my mission is to foster sustainable growth and transparency within our community. I believe that by supporting small yet impactful business initiatives—such as local services, technology ventures, and community events—we can create profitable opportunities that benefit our members and strengthen our economy.

I want to express my love and appreciation to all tribal members for holding the current council accountable. I hear your concerns, and it is crucial for leadership to engage directly with all areas of our tribe to fully understand their unique challenges and opportunities. I pledge to prioritize open communication and collaboration, ensuring that every voice is heard and valued.

I am committed to being completely straightforward with all tribal members. I will provide any and all information I can, barring any non-disclosure agreements, because I believe in fostering an informed and engaged community.

As one individual, I am ready and willing to work with anyone to revitalize our tribal government. I bring experience in business investments that are attainable and familiar to me, and I am excited to explore these opportunities with our community. However, this cannot be done alone; it requires the collective effort of all of us. Together, we can make meaningful change that reflects the needs and aspirations of our community.

While I do not make promises lightly, I commit to rolling up my sleeves and working alongside our community members on ongoing projects. My past accomplishments demonstrate my dedication to action and progress. I have successfully worked with tribal members from different reservations to create donation drives that aid those in need, hosted fundraisers for tribal members both on and off the reservation, and reached out to our youth off-reservation to raise awareness about breaking generational curses.

Together, we can build a brighter future for our tribe, grounded in accountability and shared goals. Let us work together to reinvigorate our tribal governance, ensuring that every decision reflects our community's needs and priorities.

From my heart to yours,
